Note from Micah

Listening to recent media chatter, you'd get the impression that most music is downloaded these days. Think again. *Compact discs make up a full 80% of U.S. retail music sales* (*Wall Street Journal* Tuesday, April 7, 2009, Page B4) and are the basic calling card and selling tool for every musician. Why does the CD still dominate?

One reason is that music lovers have noticed that compact discs remain "forward-compatible" with whatever the latest music file format might be. Buy a CD from your favorite band and not only can you rip the music to your iPod, but you can also keep the disc as an archival backup. Another reason, often commented on in psychological research, is that humans are *gatherers* by nature: we get a special thrill from collecting beautiful physical objects – books, magazines, stamps, antique china, paintings... the gorgeous artwork and packaging of a well-designed CD make it collectable, too. (To get a visual sense of how enthusiastic CD collectors can be, search Google images on the keywords "cd collection.")

At Oasis, we're constantly working to make our CDs and DVDs as attractive and collectable as possible. Look through this catalog and see the beautiful options we have to offer. If you *don't* see your preferred look pictured, just call (888) 296-2747 and ask for Oasis Custom™. We'll review dozens of unique packaging options with you, and cook up something that suits you perfectly!

We're also introducing *Download Cards* – a totally new way to sell music: Your fans purchase a beautifully designed "music credit card" that features your custom artwork at your event, take the card home, and use its code to download your tracks. Add 100 of these cards to your CD order for \$98, or 500 for just \$195.

Of course, the best things at Oasis aren't changing: As always, when you order a complete CD package with Oasis it comes with the full range of **free online and offline promotional support**: OasisSampler Radio Promotion and licensing opportunities, iTunes and DigStation download sales, CD Baby online and Super D Brick & Mortar distribution, Indie Venue Bible booking opportunities, a full year of the Sonichids Electronic Presskit, six months free HostBaby website hosting, five recycled high-gloss plastic retail display racks and more.

I look forward to working together with you in the near future.

Sincerely,

Micah Solomon, President and Founder

P.S. Working on something other than music? Even though we are best known as a music-oriented manufacturing company, our loyal clients include corporate and educational institutions, both large and small. See page 26 for packaging options that are especially appropriate for corporate, educational, and institutional applications.

P.P.S. If you're looking to order **more than 5,000 pieces**, please call our **Big Fish Phone, 1-866-294-0100**, directly for a special volume quote and a direct linkup to our **Big Fish-Friendly (BFF) services**, including warehousing, fulfillment, direct mail services, and more.

Case in Point: Cheryl Wheeler

Cheryl Wheeler's new premium Oasis Digipak marks her moment joining the rising tide of Indie musicians, after a lifetime recording for labels. As one of the most lauded singer-songwriters of a generation (the only person I know whose songs have been covered by such a variety of performers that they actually include both Bette Midler and Garth Brooks), I'm grateful she chose to bring this project to Oasis.

Cheryl: "We were impressed with Oasis from the start. My partner Cathleen Joyce did her initial research for this project on the Oasis website, where all of our questions were addressed in short order. Once we began working with your staff, we were confident in our choice. There were also friends in common: knowing you had worked with Janis Ian, I asked her how she felt about Oasis and she replied with a stellar, glowing review."

How did her eye-catching premium package come to be?

"Cathleen already had a good idea of what she wanted for the package design. Ultimately, with the help of your templates, we settled on a Digipak, with a 12-page booklet and a recycled clear plastic tray. We were particularly happy with the green options Oasis offered."

"This is my first independent release, and I'm loving it. Oasis really makes it easy."

Please see the facing page for our standard Digipak prices, or flip to the next spread for a gallery of the many unusual Digipak options we can put together for you – including Digipak and booklet options like we used on Cheryl's *Pointing at the Sun* project.

Micah

Green components in this package:

- Certified 100% Green Forestry Practices board, minimum 10% post-consumer
- All vegetable inks
- 100% recycled trays

Add Frankford Wayne™ mastering for only \$585. See page 21. Need more than 5,000 discs? Call 1-866-294-0100 for special pricing and services. Production time quoted is measured in business days from the time you approve your proof. For Micah's Value Package products it is an estimate believed to be accurate as of press-time; For GTT (guaranteed turn time) projects this time is **guaranteed**. Add three days for matte finish; high gloss UV finish does not add additional time.

4-panel Digipak

Four-panel (pictured), six-panel, and eight-panel Digipaks, all include full-color printing on all panels and on the exterior spine. Like all Oasis replication packages, they include high quality 3-color printing on disc (upgrade to full color on disc for just \$99). High quality overwrap is included, as is your choice of tray: 100% recycled clear hard plastic (35% post-consumer), BottleTray™ (100% post-consumer flexible clear plastic), white, or recycled black. For a professional, premium finish, your Oasis Digipak will be coated with your choice of a high gloss UV finish or subtle matte finish at no charge.

Included free with your order: online/offline distribution and promotion

The OasisSampler radio broadcast program; iTunes, CD Baby, and DigStation download sales; Brick & Mortar distribution; Indie Venue Bible booking opportunities; six months free web hosting; a full-year of Sonicbids membership; five 100% recycled high-gloss plastic retail display racks; and more. See page 14.

A whole green world of Digipak options

The Oasis BottleTray™

Revolutionary Digipaks with flexible clear trays made from 100% recycled soda and water bottles.

This product originated with a surprise visit from a friend of mine. He's just about the only person I know who still does domestic manufacturing – that's right, he still manufactures stuff right here in the United States. Just like Oasis: from raw material to finished product.

He's very concerned with the environment – and the impact of what he makes (his specialty is the molding of items like CD trays). That night, we talked about whether maybe, just maybe, there's a way to make use of the millions of water and soda bottles that are thrown out every day by consumers. After brainstorming together, my friend set about using his expertise to create a tray for Digipaks out of nothing other than bottles that were destined for the landfill or incinerator.

The tray you see below is the result of our effort together. A new kind of flexible, 100% post-consumer Digipak tray. I don't know when I've ever been more excited about a product! They look great, they feel great, and they are almost jump-for-joy great for the environment. In fact, each order of 1,000 BottleTray digipaks keeps 400 plastic bottles from ending up in a landfill. Case in Point: Barry Louis Polisar

From your local library to “Juno” and beyond

Musician and author Barry Louis Polisar has been a beloved Oasis customer for fifteen years now. Barry is my favorite example of someone who doesn't wait for the world to give him a lucky break. Instead, he shows up for every gig on time, tracks down every lead, and self-publishes.

His great attitude has really paid off. Like when he made use of Oasis' Tools of Promotion to upload his CDs onto iTunes... just in time for *Juno's* director Jason Reitman to fall in love with one of them and make it a centerpiece of the film's opening sequence

I talked with Barry recently about how it felt to be an “overnight success” after plugging away steadily for so many years. Barry:

“The *Juno* soundtrack has been a wild ride for me, especially coming out of the blue. I've had a successful career these last thirty years singing in schools and libraries from Fairbanks, Alaska to Washington, DC. Before *Juno*, I already had 350,000 recordings and books in print. But the *Juno* soundtrack has sold over a million copies, and there's even an upcoming Barry Louis Polisar tribute album, so it is a new sandbox I'm playing in now.

“The thing is, I measure my success differently: I've been happy to be able to have made a living for thirty years doing what I love doing. I love working with the people I've known all along. I get emails from adults who heard my music as a kid, who write to tell me how my songs opened a window on a new way of seeing the world – *that* is so meaningful to me.

“I enjoy the fact that I've been an Oasis CD customer for over fifteen years. I remember seeing your first ad in a music magazine. There was something homegrown and honest about the ad that pulled me in. I remember contacting you when I was about to convert my audio titles from cassette to CD (it's been *that* long)!

At that time you were operating out of your house in College Park.

“I have been pleased to be working with you ever since.”
(Needless to say, the feeling's mutual, Barry.)

Oasis Client:
The Imagination Movers
www.imaginationmovers.com

Case in Point: The Imagination Movers

Sort of like a mashup of Mister Rogers and The Beastie Boys: That's one way to describe the Playhouse Disney program "Imagination Movers." And to its young fans around the world, this unique show seemed to suddenly emerge last year, fully formed, on their television screens. But here at Oasis we know that the show was actually a long time coming – a really long time.

In fact, six years ago when the idea for the show was first hatched, all four of The Imagination Movers were holding down day jobs – as a schoolteacher, writer, firefighter and journalist. So they could only steal bits of time to work on the show's concept late in the evening, after all their kids had been put to bed.

Eventually Rich, Scott, Dave, and Smitty pitched a pilot to their local PBS station. But the funding wasn't there. So the band worked the Louisiana music scene, doing everything from kids' parties to the New Orleans Jazz and Heritage Festival. They made three popular CDs with Oasis along the way, and then a DVD with us. Their reputation began to spread beyond Louisiana.

Then their Oasis-produced DVD found its way to Disney ... and Disney decided to partner with the Movers to make a television show!

Even though the Movers have hit the scene, nationally and internationally, it's important to them to keep the show in New Orleans; three of them lost homes to Hurricane Katrina, and they remain devoted to the city. So while it's sometimes harder to produce the show in Louisiana, it's very rewarding.

Indeed, as one Mover confessed in the *New York Times* recently, they feel like "the luckiest 12-year-olds in the whole world."

Oasis Board Packaging Exclusives

Below are proprietary Oasis board packages you won't find anywhere else. Call (888) 296-2747 for free samples! Or visit www.oasisCD.com/eco

THE OASIS SOFT-SPOT® PACKAGE

Your disc is held gently in place by a tiny nub that avoids obscuring your artwork. Available with 4, 6, and 8 panels.

You can get this nub in white or black, whichever most flatters the appearance of your design.

THE OASIS ROUGH-LOOK™

A 4-panel wallet made of 100% recycled heavy kraft (light brown) board stock, with more than 70% post-consumer content. It's printed in one color of ink (black usually works best) using an updated version of an antique printing method called letterpress. No plastic! An Oasis exclusive.

THE OASIS JEWEL FREE™ BOX

A truly unique product. The tray swings back and forth on a "hinge" so your audience can read your lyrics and liner notes – no interference and no panel is lost. Makes a great self-mailer, too. Tray detaches for easy, separate recycling. Another Oasis exclusive.

THE OASIS SECRET ENVELOPE™

Tucks closed (without using plastic) like a hand-made secret envelope, opens to reveal your disc inside. (The Secret Envelope can also hold an additional lyric sheet – a very cool option!) Call for a sample.

Included FREE With Your Order: The Oasis Tools of

Promotion™ online/offline distribution and publicity program.

CD Baby loves Oasis clients! And we love CD Baby!

Membership is free through Oasis. CD Baby not only sells your CD on the coolest indie site on the web; you also get mainstream digital distribution on the most important sites: The iTunes Music Store, Rhapsody, bestbuy.com, and many more! Plus on-demand Brick & Mortar distribution at 2,400 retailers nationwide. And, just announced at press time, the opportunity to have your music sold nationwide as a cell phone ringtone via Voevo mobile delivery.

Sell your downloads at DigStation, keep 100% of the money

DigStation offers indie artists another great way to make money from their music. And now, only for Oasis clients, DigStation is free to sign up for one year (and just \$9 a year after that), plus you get to keep 100% of the download money. NEW! Sell DigStation Download Cards at gigs for a great new stream on income – see page 17.

A Full Year of the Sonicbids® Electronic Press Kit™

Set up your Electronic Press Kit (EPK™) through our partner Sonicbids and start making serious music connections today! It's an essential way to promote yourself quickly, and effectively. Your EPK™ can contain photos, press reviews, bios, MP3 files, even your performance calendar. Sonicbids membership is free for a full year when you work with Oasis.

Indie Venue Bible Booking Opportunities

New for touring bands & performers: Up-to-the-minute gig resources from The Indie Venue Bible! Thousands of verified venues and hundreds of booking agents in your choice of region.

What is an absolutely fundamental difference between Oasis and any other company out there? Once you have your discs, we help you sell them. At absolutely no additional charge.

Micha

The OasisSampler™ Radio Promotion program

The OasisSampler CD program offers you a completely free way to get your music out to radio, promoters, managers, record labels, and licensing opportunities nationwide. How it works: When you manufacture a new CD with us, you have the opportunity to choose a song of yours to be included on one of our OasisSampler CDs, each of which goes to a carefully chosen list of 400 to 700 (depending on genre) radio stations nationwide – all stations that have a proven track record of playing independently-produced music. These Samplers also go to a fantastic list of industry insiders who have asked to hear each Sampler as it comes out, and have assisted our clients in soundtrack, licensing for television, and many other opportunities.

OasisSamplers get serious attention. Our clients' music has been licensed and used on hit TV shows (Grey's Anatomy, Big Love, Deadwood and many others) and our artists have been signed to many other opportunities because of these Samplers. These samplers feature a mix of established and unknown acts. The better-known acts – who've ranged from John Mayer to John Legend, from the Indigo Girls to Richard Thompson, obviously grab some of the initial attention, but we find that new acts get every bit as much airplay and attention from the OasisSamplers DJs and other industry listeners clearly enjoy making discoveries on these discs that they wouldn't have made otherwise.

We currently offer samplers in the following genres:
Acoustic • Adult Contemporary • Alternative
Ambient • Blues • Children's • Country • Inspirational
Classical • Jazz • Pop • Rock & Roots • Underground
Urban • World

Design and host your own website FREE with Hostbaby. Design your own professional site and get it online in about an hour absolutely free. Musician-friendly features include: streaming audio, mailing list, guestbook, email, and more. Free for a full six months from Oasis.

SoundScan® upload program

Every CD sale counts! Oasis will upload (upon request) your album information directly to SoundScan. SoundScan tracks CD sales, and major music and entertainment industry businesses like Billboard Magazine subscribe to SoundScan to see what the public is buying, as do artist managers, booking agents, concert promoters, and venue owners.

"I really wish I had SoundScanned the first two years of sales when I first started selling my own CDs. More than 20,000 units went unnoticed. I HIGHLY recommend that you SoundScan every album you make."

*Pat McGee, Warner Brothers recording artist (and Oasis client)

Contact Management with LiveWire Musician – Web-based and secure!

We bring you the contact management tools you need to take care of the business side of your music career. You'll love direct access to the radio station addresses that are receiving your Sampler, appointment calendar with fabulous email reminder capability, and the ease with which you can send group emails ("e-blast") or newsletters to your fans!

Includes a blank "retail card" to display your product and pricing info.

Made of 100% recycled high-gloss plastic!

Retail Display Racks

Another way Oasis helps you market your product!

You get five FREE retail display racks (made of 100% recycled high-gloss plastic)

Display your product better than the competition, and odds are good you'll do better than the competition. Most retail stores and boutiques can select only one or two indie products to feature on their countertops. So it's to your advantage to help them display your product in style.

Designing and producing these exclusive display case hasn't been cheap. In fact, my accountant said "Great product; maybe you could include one with each order." But I wanted to include five with each new order – and that's what we've done."

"The Oasis display rack is a unique item that we at Compass Records find very useful for marketing and merchandising purposes."

 - All vegetable inks
 - Biodegradable, recyclable packaging
 - More sustainability information on page 27

Case in Point: Roadtrip Nation

Are you up on the Roadtrip Nation phenomenon? It grew out of some friends working through a dilemma together that had each of them stumped: "What do I want to do with my life?" Fresh out of college and unsure about the career paths in front of them, they were determined to expose themselves to more than just traditional life roads. Painting an old RV green, they hit the road to talk with inspired people from all walks of life, to find out how they came to do what they love for a living.

Today, Roadtrip Nation has evolved into a PBS series, three books, an online community, and more. And when Roadtrip Nation wants to spread the good word about their show, one way they do it is with the Green Forestry printed sleeve format from Oasis. It's lighter and more affordable than other options, keeps shipping costs down, and gives them the youthful, eco-friendly feel that suits them.

Micah

P.S. Catch Roadtrip Nation's latest adventure this season on your PBS affiliate.

Fast is only fast when it's guaranteed:

Customer-Controlled Turn Times – Guaranteed By Oasis. And now faster than ever!

A fast turn-time claim is meaningless if it's not guaranteed. At Oasis, we do just that. We give you cash back if we're even a single day delayed beyond our promised ship date.

Why is this important? Because turn times get quoted with wild abandon in our industry. And, except at Oasis, they are all just estimates. Perhaps optimistic estimates, perhaps realistic estimates. It's hard to know: hard for you, hard for even the company you're working with. After all, most of our competitors are brokers who vend out your project to the lowest bidder, so they have no reliable way of knowing when your project will really be finished. We do it differently: we replicate our own discs, we control delivery – we guarantee your turn time.

So what do you get back if we miss the turn time? You get real money: \$100 a day for every single day past the guaranteed turn – up to a full \$500. But we don't expect to be late. We have the most reliable, in-house, all-under-one-roof operation in the country. And we simply *will* make your date.

REMEMBER: If anyone in this industry quotes you what they say is a turn time, ask one simple question: "Is that turn time guaranteed?" With Oasis, you know it is.

NEW: Customer-controlled guaranteed turn times. Now, all Oasis Guaranteed Turn Times (GTT) are only seven to nine business days (depending on specific product) from when you to approve your proofs. This puts you in control of the proofing process while maintaining your complete guarantee. Look at the grids on each page for the specific turn time that applies when you request a GTT turn on that product.

Get your music into their hands (and onto their iPods)

\$1,000 worth of Download Cards for only \$98

Oasis is proud to introduce Download Cards. Another fantastic way that Oasis is helping you get your music to your fans. These recycled, recyclable cards contain your album artwork on the front and a unique download ID on the back that's good for one download of your album from our online partners DigStation.com.

Case in Point: The Colonial Williamsburg Foundation

With a client like The Colonial Williamsburg Foundation you've gotta treat them right (and not just because there's always that lingering mental image of punishment in the stocks if the job comes in late!).

The Colonial Williamsburg Foundation is an incredible non-profit educational foundation operating the largest living history museum in the world. In the course of their mission, they put out exceptional DVDs and interactive discs for use in classrooms and training. I am very honored that we work with them, and – as we do for all our clients – manufacture their entire disc and packaging right here in our plant, so they can be assured that their DVD will look and perform exceptionally well.

Clients like The Foundation also know that all our DVD packages are truly complete: glass mastering, high-quality printing, and a free master screening (upon request). With the expert menu design and authoring services we also provide, I think you will be extremely pleased with the level of professionalism and support that we can offer you on your own DVD project.

Menu Design

Oasis Client:
Rajesh Setty
www.RajeshSetty.com

Show your DVD menu some love

We'll turn your raw files into an expertly crafted DVD menu – starting at only \$490.

Need that extra something to finish off your DVD project and give it a professional feel? With authoring services from Oasis you'll get a custom designed menu that includes:

- DVD encoding
- One main DVD menu design and one sub-menu design
- A "play-all" feature
- Up to 20 custom chapter points with static thumbnails (or twelve with motion video thumbnails)

We also offer color correction, format transfers, and much more – just ask. Not sure if you need authoring services? **Send in your DVD today for a FREE master screening.**

Ready to go? Call us (888) 296-2747 or email us at advice@oasisCD.com for complete pricing information.

We guarantee you'll look great.

It's always been clear to me that DJs, A&R reps, retail buyers, and the public are more likely to take CDs and DVDs for a spin when they look professional (and that other discs can end up in the trash). Great design gives you the foot in the door we all need.

That's why it's been so important to me to build a design team here that has the skills and experience to craft head-turning designs for our customers all day, every day. And because DesignWorks is here in-house, it's not only much more affordable than most design firms, but also delivers award-winning design in just a few days – outside designers can take weeks just to give you your first proof.

Best of all, Oasis DesignWorks offers a money-back guarantee: If we can't satisfy you with your design proofs, you get your money back – no ifs, ands, or buts.

You've put your heart and soul into your project. Let us put our hearts and souls into your design. You won't be disappointed. See more samples at www.oasisCD.com/design

Master your CD in the multi-platinum Frankford Wayne™ tradition for only \$585.

Only Oasis clients receive these exclusive prices for legendary Frankford Wayne broadcast-quality mastering.

I'm delighted that Oasis now brings you direct access to the multi-platinum Frankford Wayne™ mastering tradition. What does this mean for you? A **once-in-a-lifetime chance to put a broadcast-ready shine on your disc – at a decidedly down-home price.**

For decades, the Frankford Wayne tradition has meant putting unparalleled expertise to work for demanding clients, many of whom are household names in the music industry. Frankford Wayne knows just how to give your recording that rich, full sound that will put it over the top (whether this means artfully boosting the levels or getting that bass really thumping – or one of the many other lifesaving judgment calls the Frankford Wayne engineers make every day.) Now, when you press your discs at Oasis, the resources of this renowned mastering tradition are at your disposal – at an unprecedented price.

When you press your discs at Oasis, we slash your Frankford Wayne mastering price to just \$585 for up to 12 tracks (a thousand-dollar value) – mastered until you're satisfied. Want 13-16 tracks? Incredibly, that's just \$685. And if your project is shorter, we've got a sweet little "EP deal" for you: a 7 song disc for just \$485.

And because you're ordering from Oasis, if you're not happy with the results, you don't pay for them: We'll run your master the way we initially received it from you and refund your mastering fee. But trust me – you're not going to be excited by the sound of your original master once you hear the sparkling Frankford Wayne version.

Please note: Oasis has relationships with many other wonderful mastering facilities throughout the country. If you have a successful relationship with one of these, we expect that you'll want to continue to do your mastering there.

Finishing Touches:

Add that extra bit of premium appeal to your CD.

Oasis Ultra-Fidelity Single Speed Glass Masters

The industry "line" is that a glass master is a glass master. But engineers, audiophiles, and discerning music fans do feel there's a subtle difference: they insist on single speed glass mastering for the finest in audio quality. At Oasis, this precision process can be yours for only \$95.

The standard way to cut your glass master is as fast as 8X speed. This is the accepted industry standard, and provides acceptable results. However, because of Oasis' in-house glass mastering facility, we can offer your release enhanced fidelity that cannot be achieved by brokers who sub their work out elsewhere. Oasis uses single speed to create a master that literally cannot be differentiated, even by an oscilloscope, from the source that's been provided. That's the Oasis Single Speed advantage.

Bar Code \$20

Unlimited usage, single title, includes prep and placement.

Security Label and Sensor Tags for DVDs

Deluxe Slipcase

Add a deluxe board wrap to your jewel case, DVD case, or Digipak for exceptional tactile appeal. Visit www.oasisCD.com/slip or call (888) 296-2747.

Oasis Clients:
Bethany & Rufus
www.bethanyandrufus.com

Vinyl CDs

Here's a way to make your CD look and literally *feel* different from anything else in the marketplace. We use black-tinted polycarbonate and a special custom stamper to create a disc that is *black on both sides* and delightfully grooved, just like an old 45. Available with any CD package. Add 19¢ per disc. Minimum order 1,000. Add five days.

Top-Spine Labels

If you're packaging your discs in jewel cases or DVD cases, I recommend top-spine labels. Simply put, they offer you the sheen of a well-established artist, plus they're very retail-friendly. (A top-spine label is a strip of tape on the top of a jewel case or DVD case that displays your name, release title, and bar code number.)

9¢ per unit up to 1,999; just 7¢ per unit for 2,000 or more (minimum charge \$90). *I don't* feel top spines are necessary on most eco-packaging formats as they have not become an industry expectation in these formats.

Bulk Replicated (pressed) discs

Even in quantities as small as 300, you can get real pressed discs. With on-disc printing of up to three colors included, they are the same high-quality CDs that you would get with one of our packages. Don't send out a recording that looks less than professional!

Oasis Express Short Run

Need 1 to 300 discs really, really fast?
Order them online, 24-7! Visit www.oasisCD.com/express

It's important that Oasis clients have a short-run disc solution any time they're under the gun schedule-wise or only need a small quantity. Now, with Oasis Express™ short-run disc duplication, printed discs with your music or data are available in as little as two days. Oasis Express short-run discs boast a professional appearance similar to replicated discs, and give you the flexibility, affordability, and speed of short-run duplication. Most importantly, each Oasis Express short-run order is professionally quality-checked, so you know your discs will play reliably. The prices below reflect a special discount for building your project online using our exclusive new online disc-creator at www.oasisCD.com/express. If you prefer to set up your project more traditionally, a surcharge will apply. Also, express short run discs are not part of the Oasis guaranteed turn time program and do not include our Tools of Promotion™ (TOP) suite.

Got a day job? We do, too.

Nearly everyone who works at Oasis, including myself and throughout the ranks, is an active musician.* But we truly enjoy working on all sorts of projects. In fact, some of the client projects we put the most effort into are for great companies, small and large, national and international. Schools, churches, synagogues, government agencies. Plus, companies – some of which are household names – that are famously going carbon-neutral, as profiled in the business press.

Here are some of the packaging options that have worked well for these institutions. You'll find more throughout this book. So, it's okay to 'fess up if you have a day job. We do, too.

Micah

**(No, this isn't a specific requirement on our employment application. It's just the way we tend to roll.)*

Need more than 5,000 pieces?

Call our **Big Fish Phone**, **1-866-294-0100**, directly for a special volume quote and a direct linkup to our Big Fish Friendly (BFF) services, including warehousing, fulfillment, direct mail services, and more.

Oasis Environmental Practices

- All Oasis board packaging is printed on 100% Green Forestry Practices certified stock. Green Forestry Practices certified means we don't promote forest monoculture, clear-cutting of virgin, old-growth timber, nor contribute to other destructive forestry practices.
- On all Oasis projects, over 99% of the inks we use are eco-friendly, vegetable-based inks.
- All the scrap polycarbonate, board, paper, and other industrial waste that can be effectively reused is captured in our plant for recycling.
- All of our manufacturing is domestic and nearly all of it is done under our own auspices, leading to one of the lower carbon footprints in the industry. In other words, Oasis helps reduce excessive strain on the environment by efficiently manufacturing and printing in our own facility, rather than farming out your work all over the country and even all over the globe, a standard practice for the brokers who predominate in the independent disc replication industry.

You may notice we've lost weight.

This new Oasis catalog is nearly 30% thinner than it has been in the past. This reduces the strain on our forests and decreases our carbon footprint. If there's anything you're looking for that you're not finding here, please call us at 1-888-296-2747 (9am-7pm eastern time) or visit www.oasisCD.com to see more of our product line.
